

## Our Policy

- We aim to be a good corporate citizen relied and needed by the global community through the open and fair business activities.
- We are committed to make our effort on the research and development of the most advanced technologies in the various fields and provide the unique, attractive products and services meeting the customer's demands globally.
- “Continue to evolve for the customers” is our management principle. We strive to deliver the products and the services to the customers with high speed and at a reasonable price.
